

CALL FOR SPEAKERS

1st International Conference on Translation and Interpreting in Mexico City organized by the Mexican Association of Licensed Translators and Interpreters (CMLTI)

CMLTI-CDMX Conference

The Evolution of Language Services in a Global Communication Setting: Innovation, Adaptation, and Collaboration

As language service providers, we have had to redefine our processes and workflows to highlight the unique value of our inherently human skills, such as creativity, cultural sensitivity, and critical judgment. The evolving global communication setting has not only impacted the way we work but has also led us to redefine our professional identity.

Technological advancements have ushered in an unprecedented era of opportunities for linguistic mediators, enabling us to expand our roles into strategic, creative, and technological domains. This shift has positioned us as key players in global communication, shaping the development of new linguistic tools. This redefinition of professional identity also calls for a redesign of translating and interpreting training models to equip professionals with the necessary skills to keep pace with technological advancements.

Our profession is evolving towards a hybrid approach that combines the power of technology with our human touch, making this the perfect time for language service providers to position themselves as key strategists in the global communication setting.

Given this international reality, the *Mexican Association of Licensed Translators and Interpreters* (CMLTI) invites professionals to participate in their 1st International Conference on Translation and Interpreting in Mexico City, to be held on October 11 and 12, 2025, at the *Fiesta Inn Centro Histórico Hotel*. The central theme of the event is **“The Evolution of Language Services in the Global Communication Setting: Innovation, Adaptation, and Collaboration.”**

This call is open to professional translators and interpreters, academics, researchers, and other stakeholders in the field of linguistic mediation.

Abstract submissions are welcome in the following areas:
